URBAN LEGEND
WARNING: MAY CONTAIN NUDITY!

Hello and welcome to another jam-packed issue of your favorite miniatures catalog! This issue's stunning cover was done by none other than fan favorite artist Wayne Reynolds. We specifically commissioned Wayne to do this art for our Reaper Con 2011 show, but it was too cool not to use for our catalog. And if you've never made it down to sunny Denton, Texas for Reaper Con....well, shame on you! If you couldn't make it this year, there's always 2012, right?

2011 has brought many changes to Reaper Miniatures. In January, Reaper Miniatures became a brand under Hobby-Q. Along with Reaper Miniatures, our sister brands include Master Series Paints, Asylum Miniatures, and Collecta high quality collectibles. Later you'll probably see a couple of other brands under this umbrella.

What does this mean for you, the consumer? Pretty much nothing. Reaper will still produce Dark Heaven Legends, Warlord, Chronoscope, and other metal miniatures. Master Series Paints will not be changing. Any time you walk into your favorite local gaming store, we'll be right there where we've always been. So don't sweat it – we're not going to do anything different that would keep you from enjoying the same great products that you've come to know and love.

The officially licensed Pathfinder Miniatures line continues to perform extremely well for us, and we're looking forward to working closely with the fine folks at Paizo Publishing (www.paizo.com). And, we're happy to let you know that this summer we'll be teaming up with the wizards over at Pinnacle Entertainment Group (www.peginc.com) to produce miniatures for the Savage Worlds gaming system. The first minis have already arrived and they look fantastic!

For you hobbyists who've been pleading with us to produce miniatures in high quality resin, well, we've been listening. This summer we'll be exploring this exciting new venture. I've seen the first couple of sculpts for these minis, and they are stunning! Keep watching www.reapermini.com for more details on this new line of high quality miniatures.

Enough for now...we hope you enjoy this long overdue issue of Casket Works. We think Reaper Bryan did a brilliant job. If you think so too, please let us know!

See you next issue!

Reaper Miniatures is here for people who love gaming. Our catalog is aimed at those with a love of miniatures, and a passion for gaming. Our goal is to stroke our egos, and at the same time be innovative in the gaming industry. We love to have fun, create new things, push ourselves, make great figures, and embarrass other companies with how well we do what we do!

On the Cover: Wayne Reynold's wonderful concept for Pulp Explorer Sophie, also the figure for ReaperCon 2011!

NEWS AND THOUGHTS FROM THE UNHALLOWED HALLS OF REAPER MINIATURES!

HOBBYQ™

What Does HobbyQ mean for you?

The fast answer is, nothing. Reaper Miniatures is well known for metal figures and games using metal figures. Reaper Miniatures still exists in every way that you knew it! But we've spent the last few years spinning our Plastic line over to Asylum Miniatures, our Master Series Paint away from the Reaper Brand, and needed a new name. HobbyQ is nothing more than the name for the umbrella that covers everything that used to be Reaper, so Reaper can focus now on Metal figures,and let the Asylum Brand, the Master Series Brand, and the Collecta Brand shine!

Reaper Miniatures will still make the finest metal figures around, and is still the same fine crew that you've come to love!

REAPER MINIATURES GETS SAVAGE!

Reaper Miniatures and Pinnacle have joined forces to create Savage Worlds Miniatures! The new line kicks off in May with incredible new sculpts of Deadlands' four servitors—Dr. Darius Hellstromme, Reverend Grimme, Raven, and the Weird West's deadliest undead gunslinger, Stone!

And it's not just Deadlands! The Savage Worlds RPG covers every genre, and these miniatures will, too!

WarLord©™ Second Edition

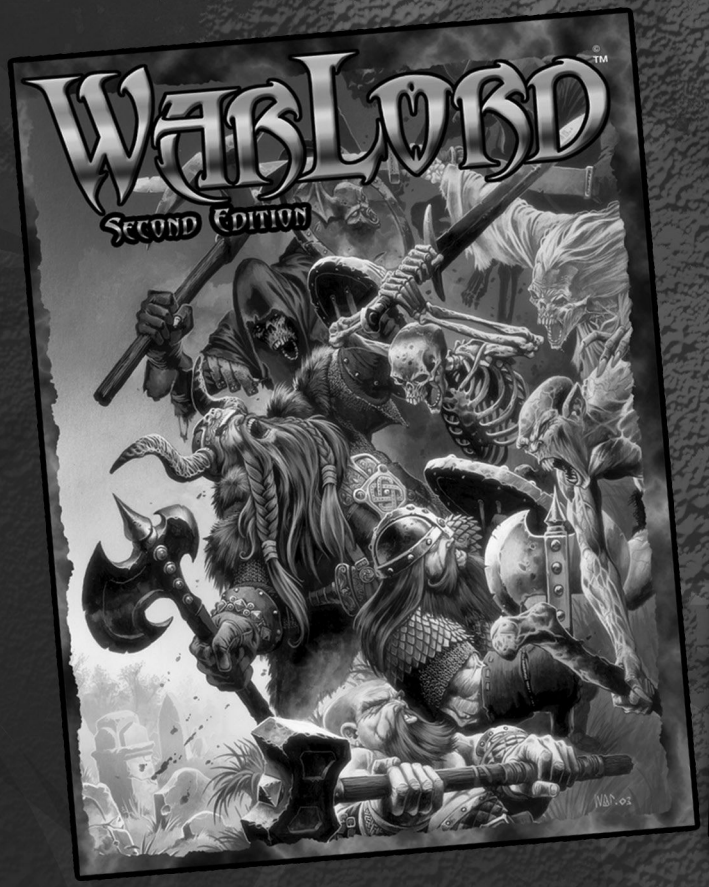

Savage North™

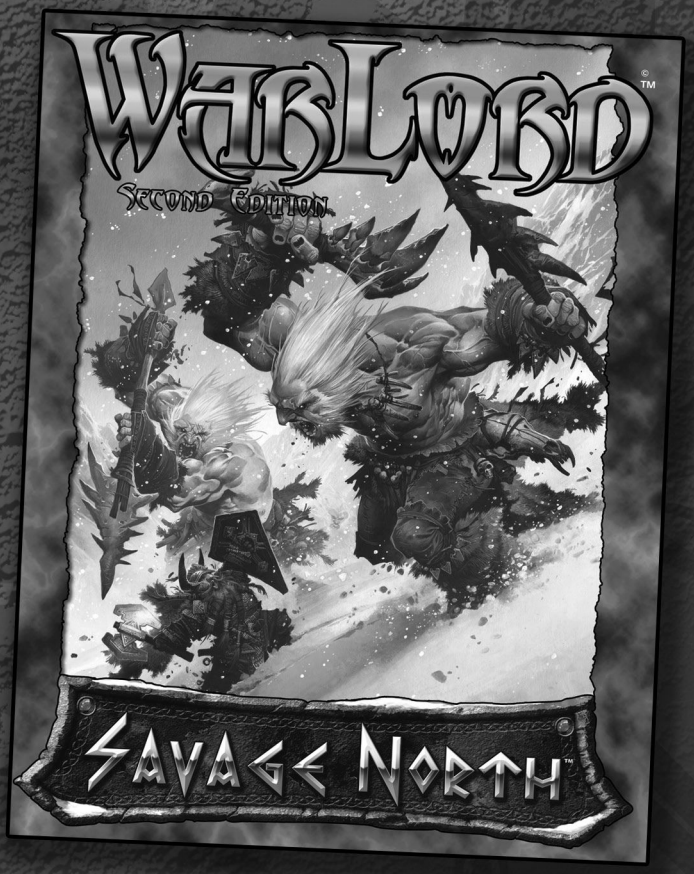

The Savage North, as it has become known by the civilized nations sharing its borders, is the inhospitable stretch of untamed pristine wilderness beginning at the northern frontiers of Anhur, Haldor, and Ritterlich and extending northwards to the impassable glaciers of the Ice Crown Mountain range. This veritable no-man's land stretches from Frost Wind Bay in the east to the foothills of the Kjord Peninsula in the west and all points in between. No one owns this land although many tribes have laid claim to it by birthright or by right of conquest. Since the distant past giants, dwarves, elves, orcs, have vied for dominance but to date none have been successful.

The land varies from sheer ice-capped mountains of granite, crumbling craggy foothills of slate and flint, dark primeval forests, and wind-blown tundra. It is a beautiful but austere region where only the strong and wary survive for long.

Warlord Second Edition and Warlord: The Savage North each include the full rules, you can play the game with either book! Warlord intorduces Taltos, and the ten Warlords that vie for control of the godless lands, while in the Savage North, 6 new Warlords and thier armies await! Take command, and claim your right to rule!

25101: Warlord: Second Edition Softcover	$19.95
25102: Warlord: Savage North Hardcover	$34.99
25201: Warlord Rising, Novel by Michales Joy	$11.99

14599 COMING SOON!

14599: Berogg Blackrime will be released as a resin and white metal kit, the first Warlord figure to be available in Resin!

For other Resin offerings, look at 30012: The Dark Maiden, and 30014: The Grudge on the back cover!

Ok, Here's a good one: 

A drow, a tiefling, and a half-orc are standing on the roof of a burning building. Their only possible escape is to jump into a blanket held by a group of humans on the streets below. The drow is the first to approach the edge. "Jump!" yell the humans. "It's your only chance!"

Seeing no other alternative, the drow jumps off the roof. The humans pull away the blanket, leaving the drow to splat on the street, dead.

Next is the tiefling. "Come on, you have to jump!" the humans shout. "I don't think so," the tiefling responds. "You're just going to pull away the blanket and leave me to die!"

"No we're not!" the humans yell back. "It's just drow we don't like. We're fine with tieflings!" Convinced, the tiefling jumps off and goes splat as the humans pull back the blanket. Only the half-orc remains on top of the burning building.

"Hurry up and jump or you're gonna burn!" the humans shout. "Nothing you humans say is gonna convince me you won't pull away the blanket," the half-orc responds. "So before I jump, I want you to set the blanket on the ground and back away."

CAV

STRIKE OPERATIONS

NEW for 2011... CAV: Strike Operations!

CAV: Strike Operations (C:SO) is the all-new sci-fi miniatures game from Reaper Miniatures. Building on the systems and universe established by 1st and 2nd Edition CAV, also by Reaper Miniatures, C:SO uses a variation of the Reaper Adventure Game Engine (RAGE) allowing for 2 or more players to learn a few basic rules and jump right into the action!

The CAV: Strike Operations rule-book (Product No. 24900 $24.95) is 144 pages in length and features a printed and electronic version of the rules. Included are all the rules needed to play the game as well as a new updated background with three new factions and a detailed construction system so players can build their own machines of war!

See the Galaxy...

..., meet new and interesting people, and then blast 'em!

The year is 2270 and the First Galaxy War is over. For nine long years the major star-nations of the galaxy have pounded one another in their quest for more power and resources.

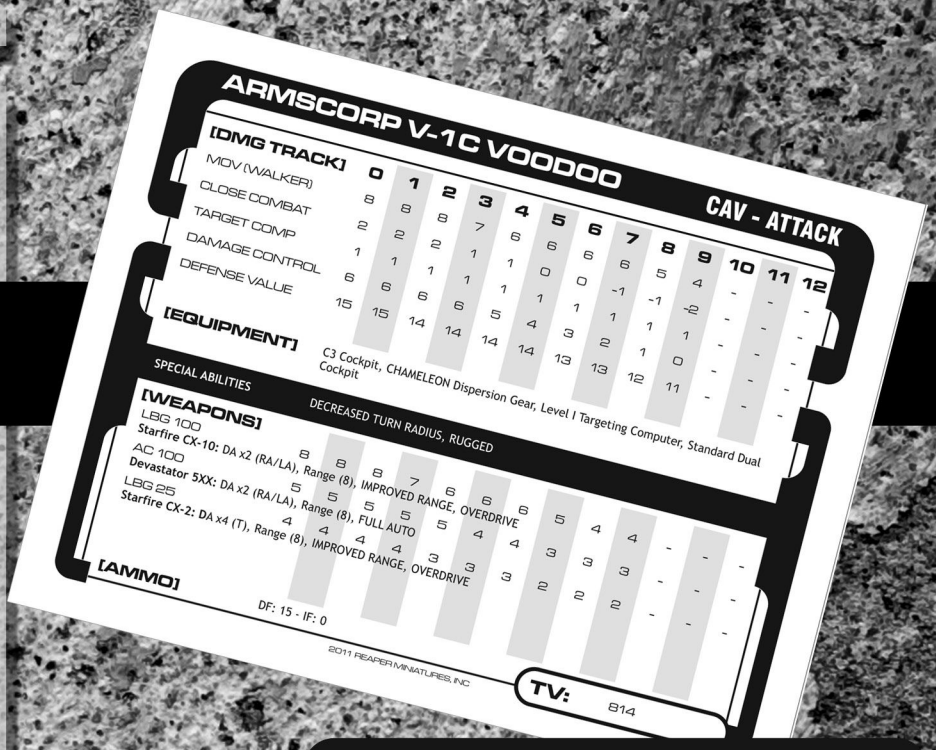

The all-out war has reshaped the known galaxy and a fragile peace descends across the ruins of dozens of savaged worlds. The resentment and mistrust that sparked the conflict remain though and rumblings from the combatants capital worlds seem all to ready to ignite the flames of war once more.

Meanwhile the mighty CAVs (Combat Assault Vehicles) continue to roll out from the factories of the mega-corporations to replace their destroyed brethren as the armies of the galaxy rebuild and make ready for the next round.

Welcome to the 23rd century!

See What's New!

Building on the RAGE System, CAV: Strike Operations is a complete game system that allows for faster and more enjoyable play. New equipment, upgrades, and battlefield assets provide for a multitude of strategy and tactics.

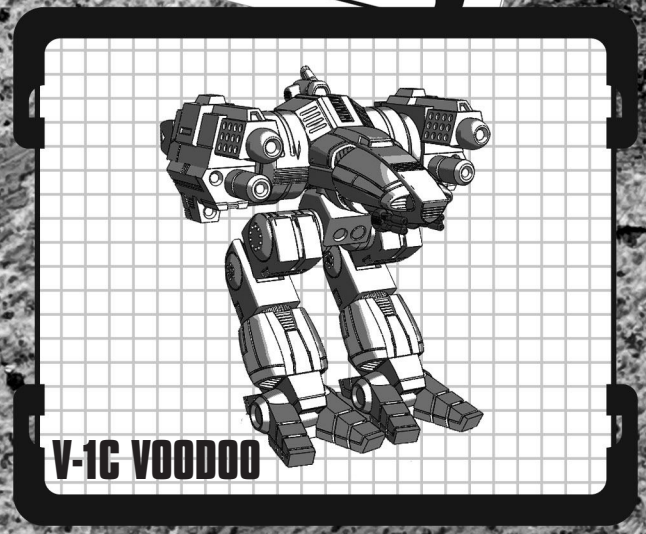

Key features include:

- **Data Cards:** All the information for a model is contained on single, small card.
- **Easy Mechanics:** Roll 2d6 and add or subtract situation modifiers. Compare to a single target number to determine the results.
- **Fluid Play:** Players from both sides stay involved as the action moves back and forth. Players are allowed to react to attacks as they happen.
- **The Damage Track System:** Models weaken as they take damage for more realistic play.
- **Faction or Freelance Play:** Choose from official factions or combine the models you want to play into a freelance force of your design.
- **Strategy & Tactics:** Design your Force Group to your playing style. You decide wh models move and the actions they take.

CHRONOSCOPE THE MOVIE

Once again Reaper is ready to begin casting our upcoming* Chronoscope movie! The story this time involves the alien invasion of the Andromedans and the government response! We've done our best to fill the screen with stars portraying your favorite Chronoscope figures! The script is still in development, but here's what was pitched to us!

Opening Scene: The Aliens invade via Chest Bursters! The miniature is 50218: Alien Parasite with Host. We wanted to cast him with Pete Postlethwaite, but alas, He has gone on to the great soundstage in the sky. Open calls are still being held, must provide own alien parasite.

Alien Parasite w/ Host
by Kevin Williams
50218 $5.99

The Alien's victim is then found by curvy french maid 50084: Brigitte, played by Sofia Vergara. Brigitte does her best to tidy up the mess before the government agents arrive, but she is obviously traumatized by the death of her employer at the hands of the alien invaders. She'll probably get an Oscar™ nomination. Or maybe a couple of Golden Globes™ .

Brigitte, Naughty French Maid
by Werner Klocke
50084 $5.99

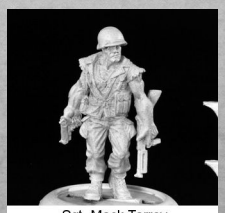

Now the sexy investigator, 50148: Astrid, arrives on the scene. Emma Watson, formerly of the Harry Potter Milieu, will be playing Astrid. She's had a run in with the aliens before it turns out, and asked for this assignment. Steeped in intrigue and fury, and an absolute lack of people Whose Names Must Not Be Said. This was a keystone in her contract.

Astrid Berger, Female Spy
by Andrew Rae

Of course, we want explosions, too, so the government sends in 50120: Sgt. Mack Torrey, played by Hugh Jackman. Lots of things explode as he fights off the alien spacecraft and wrestles invading soldiers with his shirt off. Aliens hate shirts.

Sgt. Mack Torrey
by James Van Schaik
50120 $5.99

In the end, the Andromedan Empress, 50220: Messalina IV surrenders, and agrees to live peacefully on a new colony on Mars. Messalina will be played by the Na'vi from Avatar. Also, we're going to blow up Mars. The reason why is unclear, but Michael Bay is directing, and he insisted.

Empress Messalina IV of the Andromedans
by Patrick Keith
50220 $9.49

P-65 HEAVY METAL

P-65: the metal formula that made Reaper famous!! It's a blend of white metals designed to capture every subtle detail as well as allow for maximum metal flexibility for straightening and posing. Bringing this metal formula back into production is a big step for us so we felt it only appropriate to name the new line P-65 in honor of its heritage.

P-65 is a lead based alloy similar to 60% lead - 40% tin solder and is the perfect mix to cast miniatures in. The P-65 miniature line is designed specifically for the adult modeler and is being released to give them a choice in how they spend their hobby dollars.

A horde of orcs is wandering through the countryside looking for towns to pillage when the chieftain spots a lone dwarf standing on a rocky outcropping atop a nearby hill.
The dwarf yells as loud as he can, "I am Bragg Ironballs and I dare you to send your best warrior up here!"
The orc chieftain points at this best warrior and off he goes around the outcropping. The dwarf jumps down and the sounds of battle are heard. Seconds later the orc's head comes rolling down the hill. The dwarf climbs back up and yells, "I AM BRAGG IRONBALLS AND I DARE YOU TO SEND YOUR 10 BEST WARRIORS UP HERE!!" The orc chief waves and his 10 best warriors run around the outcropping. After a few seconds, all 10 heads come rolling down the hill. The dwarf climbs back up on the outcropping and yells, "I AM Bragg Ironballs AND I DARE YOU TO SEND YOUR 100 BEST WARRIORS UP HERE!!" The orc chief motions and 100 orcs charge up the hill. The clash of weapons starts ringing down the hill and dozens of orc heads start bouncing across the ground. Eventually, one orc comes running back down and starts screaming, "Boss, it's a trap! Dere's two of dem!"
